PROFILE

Technical leader with 10+ years driving digital platform excellence through a unique blend of hands-on development, governance, and team enablement. Experience steering development teams, conducting pre-sales requirement analyses, and implementing CI/CD workflows for scalable solutions. Adept at translating complex technical concepts for diverse stakeholders and fostering collaborative environments where innovation thrives. Currently scaling best practices in AEM consulting at eggs unimedia. Eager to bring technical expertise and servant-leadership mindset to shape BMW's AI platform ecosystem.

PROFESSIONAL EXPERIENCE

Senior Technical Consultant AEM

eggs unimedia GmbH · Munich · July 2024 – Present

- Technical consulting and delivery for the BMW enterprise account, focused on evolving the company-wide CMS built on Adobe Experience Manager (AEM Sites, AEM Assets)
- Component development and multisite management for BMW Group Websites across multiple markets
- Designing and implementing UX/UI improvements from the editors' perspective to make the CMS easier to work with day to day; design work in Figma
- API integrations and connecting AI capabilities through Model Context Protocols (MCPs)
- Ownership of CI/CD pipelines, GitHub Workflows, and project-level DevOps work
- Member of the internal Customer Experience Unit Governance Board
- Active in the pre-sales domain: technical assessments, solution outlines, and effort estimate for new business and project extensions
- Buddy & Onboarding domain: mentoring and onboarding of new employees

Technical Consultant AEM

eggs unimedia GmbH · Munich · November 2021 – July 2024

- Joined with a frontend focus on the BMW project, gradually expanding into full-stack and consulting work
- Developed AEM components and templates using Java, JavaScript, Apache Sling
